☑️ Step-by-Step Photo Guide
MATERIALS

- BIG PLASTIC BOTTLE
- PAPER PINS
- SMALL BALLOON
Insert paperclips in empty balloon to make it heavy.

Mouth of balloon is open.
Drop balloon diver in bottle full of water

Close the lid. On pressing bottle, diver sinks. On releasing it rises.

Adjust pressure to park balloon in the middle.
Step-by-step Photo Guide

1. Fill a fish balloon. Make sure the mouth of the balloon is heavy.
2. Insert two paper clips in the balloon.
3. Place the balloon fish in a 1L plastic bottle filled with water.
4. Screw on the lid. Make sure that the balloon just sticks outside a little bit of water. Make it heavy and so it sinks.

Instructions:

- Balloon fish will rise up again.
- Extra water will gush out and the pressure of releasing the pressure, the balloon fish will sink to the bottom.
- Tie a knot. Then screw on the lid.
- Draw a fish on the balloon with a ball pen.
