☑️ Detailed
Worksheet

Chatterbox
1. Fold diagonals of a square paper

2. Fold corners to the centre point

3. Fold looks like an envelope

4. Turn the paper and fold the corners to the centre point

5. So that the fold looks like this

6. Turn the paper and fold its two opposite flaps outward.
7. Fold both flaps in as shown

8. Fold looks like this

9. Draw eyes and mouth on upper and lower triangular flaps

10. Pinch the centre crease so that nose stands out

11. Hold the side corners with thumb and index fingers and move hands to and fro. This will make Chatterbox chatter.
Chatterbox

1. Take the double envelope base and fold its two opposite flaps in the middle. These two triangles will make the upper and lower halves of the chatterbox's face.

2. Crease along the middle line and draw the face.

3. Slip your thumb under the upper half of the face and pinch the centre crease, so that the nose stands out. Pinch the bottom centre crease too.

4. Hold the side corners with the thumb and index fingers of both your hands so that the two halves of the face are brought together. By moving your hands you will be able to make the chatterbox chatter.
