Playdough

You can make playdough at home with your microwave!

**How to Make Playdough at Home:**

**The Ingredients**

1 cup salt
2 cups flour
3 tbs cream of tartar
2 tbs oil
2 cups water
Food coloring or liquid watercolor (a few drops)
Glitter (optional)
The Steps

- Mix the dry ingredients into a large bowl, stir well. DO NOT ADD GLITTER YET!
- Mix the water, oil, and food coloring in a separate bowl.
- Gradually add the wet ingredients to the dry ingredients while stirring
- Stir until you get a smooth consistency
- Cook in microwave on high for 2-3 minutes
- Remove the crusty playdough from around the edge of the bowl with a fork
- Let dough cool, and stir dough for about one minute, breaking up the lumps
- Return to microwave and cook for 2-3 minutes
- Remove the crusty playdough from around the edge of the bowl with a fork.
- Let cool, and knead dough for about one minute, breaking up the lumps
- Cook until dough is no longer sticky, about one minute
- Spread out on cookie sheet or tray to aid the cooling process
- Knead in the glitter and have fun!

Notes About Safety

DO NOT PUT GLITTER IN THE MICROWAVE!

Be very careful, the dough will be extremely hot after cooking, and cooking times vary depending on the microwave.
